A Guide to Understanding Your Brokerage Account Statement

Rated Excellent Five Years In A Row

Introduction

Few documents allow you to monitor your financial activity as closely as your brokerage account statement. This report provides you with a snapshot of all relevant information regarding your portfolio. Whether tracking deposits or withdrawals, reviewing the performance of your annuities or simply keeping an eye on your debit card activity, your brokerage account statement acts as your financial diary.

The important nature of this statement makes it imperative that you are able to both navigate and understand this document. This guide will provide you with the steps necessary to review and familiarize yourself with your statement's features and benefits.

Make a Powerful Choice: Go Paperless

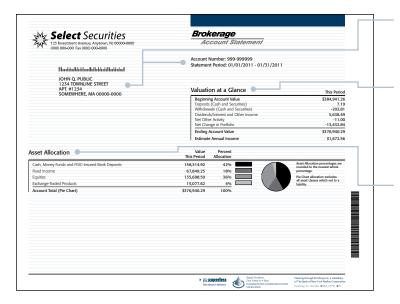

Conservation of resources has become an important initiative across the globe. Support efforts to go green by choosing electronic delivery of your brokerage account statements, trade confirmations and other eligible account communications. Available through a passwordprotected website, electronic delivery provides convenience and increased security over paper documents. Once enrolled, you'll be able to view, download and print your account communications from just about any computer, all at your convenience. An e-mail will notify you when communications are available to view, and you can change your delivery preferences at any time.

Make the move to paperless today. Contact your investment professional or financial organization to learn how to access your account communications electronically.

Account Information

Your account number and the statement period appear here on the top right. Your name and address appear on the top left.

Valuation at a Glance

The beginning and ending account values for the current statement period and an explanation of the changes in the value of your account appear here. A summary of your account activity including cash deposits, cash withdrawals, dividends and interest, fees and changes in account value are also present.

Asset Allocation

Here you will find a summary of your portfolio holdings by asset class. The market value (based on prices as of the last day of the statement period) of each asset class and the percentage of the account it represents are displayed; the sum of market values for each asset class represents the net value of your portfolio. A pie chart will also be displayed illustrating asset allocation if at least two asset classes equal 2.5 percent or greater of the total account value.

Customer Service Information

Specific information about your financial organization, such as your investment professional's name and address, interested party information, service hours and other information, will appear in this section. For retirement products, your prior year-end fair market value is displayed at the end of this section.

Note: The cost basis method, or tax lot disposition method, for your account will appear in this section. Unless otherwise instructed, the sale and delivery of your stocks will be completed using first-in, first-out (FIFO), which means they were purchased first. FIFO is the federally-mandated default tax lot disposition method for calculating cost basis (the adjusted purchase price). There are, however, other acceptable methods that can be used to properly set up your account.

For more information about all available methods, or to change your default tax lot selection, please consult your tax advisor or investment professional.

Disclaimers and Other Important Information Regarding Your Required Minimum Distribution Summary

According to our records, you are required under federal tax law to take an annual minimum distribution from your retirement account. These required minimum distributions (RMDs) usually begin in the year you reach the age of 70 1/2. Failure to take the RMD when required may result in a 50% excise tax imposed on the amount you did not take.

You are allowed to take your RMD in cash or securities. For a distribution to be made, sufficient cash or securities must be available in your retirement account when we receive your distribution request and for subsequent distributions. If you changed your beneficiary after January 1 of this year and your new or prior beneficiary is your spouse who is more than ten years younger than you, you may need to reacludate the KND amount stated above.

If you have more than one traditional individual retirement account (RA), including SEP and SIMPLE IRAs, the RMD for these accounts can be aggregated and removed from a single — Traditional IRA. This acception does not apply to multiple qualified retirement plans (QRPs) such as profit sharing, money purchase pension, 401(k) and defined benefit plans. RMDs for (RPS must be removed from each QRS account.

NOTE: Any outstanding rollowers or recharacterizations that were not in your account on December 31 of the prior year should be added to your year-end fair market value for the previous year to calculate your NND for the current year. Also, when taking your RND, please consider any scheduled distribution amounts you have established which may allow you to adomtativily meet all or part of your RND. Please constact will by our an interesting in establishing instructions.

Using the information on our files, your RND was determined by dividing your fair market value by a calculation factor determined by the internal Reserve Sensice (RS). The factor is based on your age at the end of the year and the age and relationships of your beneficiany(es). We strongly suggest that you verify this calculation with your tax protessional, as there may be other performed information that could impact your RND amount. To withdraw your RND, contractly our investment professional for the approximate withdrawal form.

Required Minimum Distribution Summary

If you are age 70½ or older by the end of the calendar year and have a retirement account for which Pershing LLC serves as the custodian or servicing agent, this section will appear. It displays the prior year-end fair market value, the calculation factor, the Internal Revenue Service required minimum distribution amount for the current year, the amount withdrawn year to date for the current year and the remaining amount to be withdrawn for the current year.

Note: Please note that Pershing does not offer tax or legal advice. Please consult your tax advisor concerning the impact of this change on your specific circumstances.

Portfolio Holdings

This section includes all settled positions. For investors with enhanced portfolio reporting, tax-lot information is provided for easy tracking of cost basis and gain and loss information. Monthly statements will include an expanded Portfolio Holdings section indicating dates acquired, original cost basis, current price, and unrealized gains and losses for all current holdings. For bonds, the statement reflects both original and adjusted cost basis (adjusted for principal paydowns and any accretion or amortization on premium or discounted bonds).

Schedule of Realized Gains and Losses

For investors with enhanced portfolio reporting, information regarding cost basis and realized gains and losses on closed positions (as of the trade date) for the current statement period or year to date is listed here. Buy transactions, sell transactions, instruments that mature and option expirations are displayed, among other transaction types. Also, as a result of new IRS cost basis reporting requirements, the cost basis method, or tax lot disposition method used, will appear.

Consolidated Account Summary Sections

— Summary of Accounts

If you are enrolled in SelectLink^{*}, this section lists each of the linked accounts, including the account description, the account number and the registration of each account. SelectLink is a complimentary service that allows you to link all of your accounts that share the same mailing address. To sign up for SelectLink, contact your investment professional or financial organization. The value of each account, the percentage of total assets for each account and the entire market value (or net worth) of all accounts included in the Consolidated Account Summary are also listed.

Summary of Asset Allocation

Here you will find a summary of your portfolio holdings in linked accounts by asset class. The market value (based on prices as of the last day of the statement period) of each asset class and the percentage of the account it represents are displayed. The sum of market values for each asset class represents the net value of your portfolio. In addition, a pie chart will be displayed illustrating asset allocation if at least two asset classes equal 2.5 percent or greater of the total account value.

Additional Information

Your brokerage account statement is a vital tool in managing your financial stability and we encourage you to review it whenever possible. Your personal statement will include only the sections that are relevant to your accounts and may not include all of the sections described in this guide. This particular sample brokerage account statement is designed to reflect a large number of potential situations. It is not intended to recommend any specific security or asset allocation. Please use this guide to assist you in navigating this important document. If you have any questions or comments, contact your investment professional or financial organization.
